© 2011 Carnegie Learning The solution to any inequality can be represented on a number line by a raywhose starting point is an open or closed circle. A raybegins at a starting point and goes on forever in one direction. A closed circle means that the starting point is part of the solution set of the inequality.

Students graph and solve linear inequalities in two variables graphically by determining the correct half-planes for the solution sets. A.REI.D.12 • Systems of Linear Inequalities Students determine the intersections between two inequalities, graph the inequalities, and shade the regions representing the solutions and their intersections.
