who grow our cocoa?
As the global population grows, and as we feel the increasing impact of climate change, natural resources will become more scarce. Competition for resources - such as food, water, energy and agricultural land - is only likely to get more intense.

The Cocoa Grinds Report is a quarterly report for cocoa traders and those with ties to the cocoa industry. Supplied by NCA for the ICE Futures U.S., the report measures the number of cocoa beans that have been ground during the reporting period in North America. About 10 chocolate processors contribute their data to the report.
