A case-based question consists of two (rather obvious) parts: the case and the question(s). Within the case a situation is described or information is presented which the examinee will have to use to solve the problem. In some cases the problem might already be presented within the case text. Example case 1

Problems in Property Law Series I. This lesson consists of 60 hypothetical factual situations designed to reinforce the student's skills in applying the major principles and precepts of basic property law. The student is expected to determine the correct answers by reasoning from hypothetical facts through the applicable precepts and principles, rather than merely being able to identify the rules that apply.
