### 5 Facts About Cannabis And Women's Health

Ellementa is a global wellness company educating women about plant medicine, including cannabis and CBD, and guiding them to quality products from trusted brands that want to reach them.

### About - Ellementa

A Canadian study found that gender influences how much of an effect THC has on us, with women being more affected than men. While there's a belief that more men smoke cannabis than women — due to stereotypes and ease of access — it's widely assumed that the plant affects the sexes similarly.
